STEEL DETAILING

Portfolio

A selection of structural steel and platework detailing projects delivered across Australia, New Zealand, Thailand, and Vietnam.

Your Technical Team At Scale

Count on our team of Vietnamese engineers, draftsmen, estimators, and 3D renderers, with a local Australian representative to overcome workforce challenges.

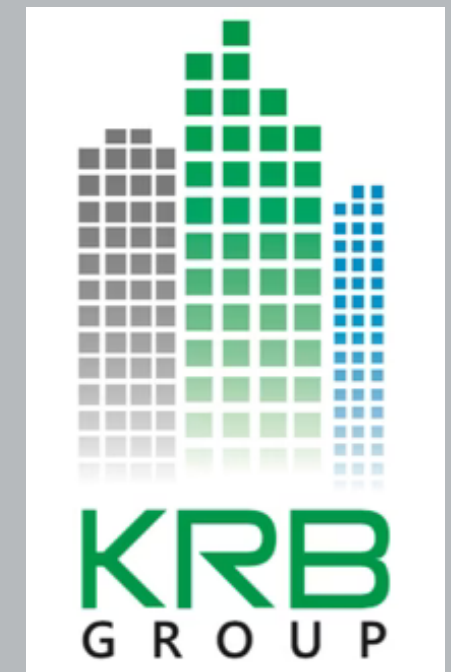

OUR PARTNERSHIP

Australian
businesses
that require
offshore support

Vietnamese
engineers
(employed by UTO)

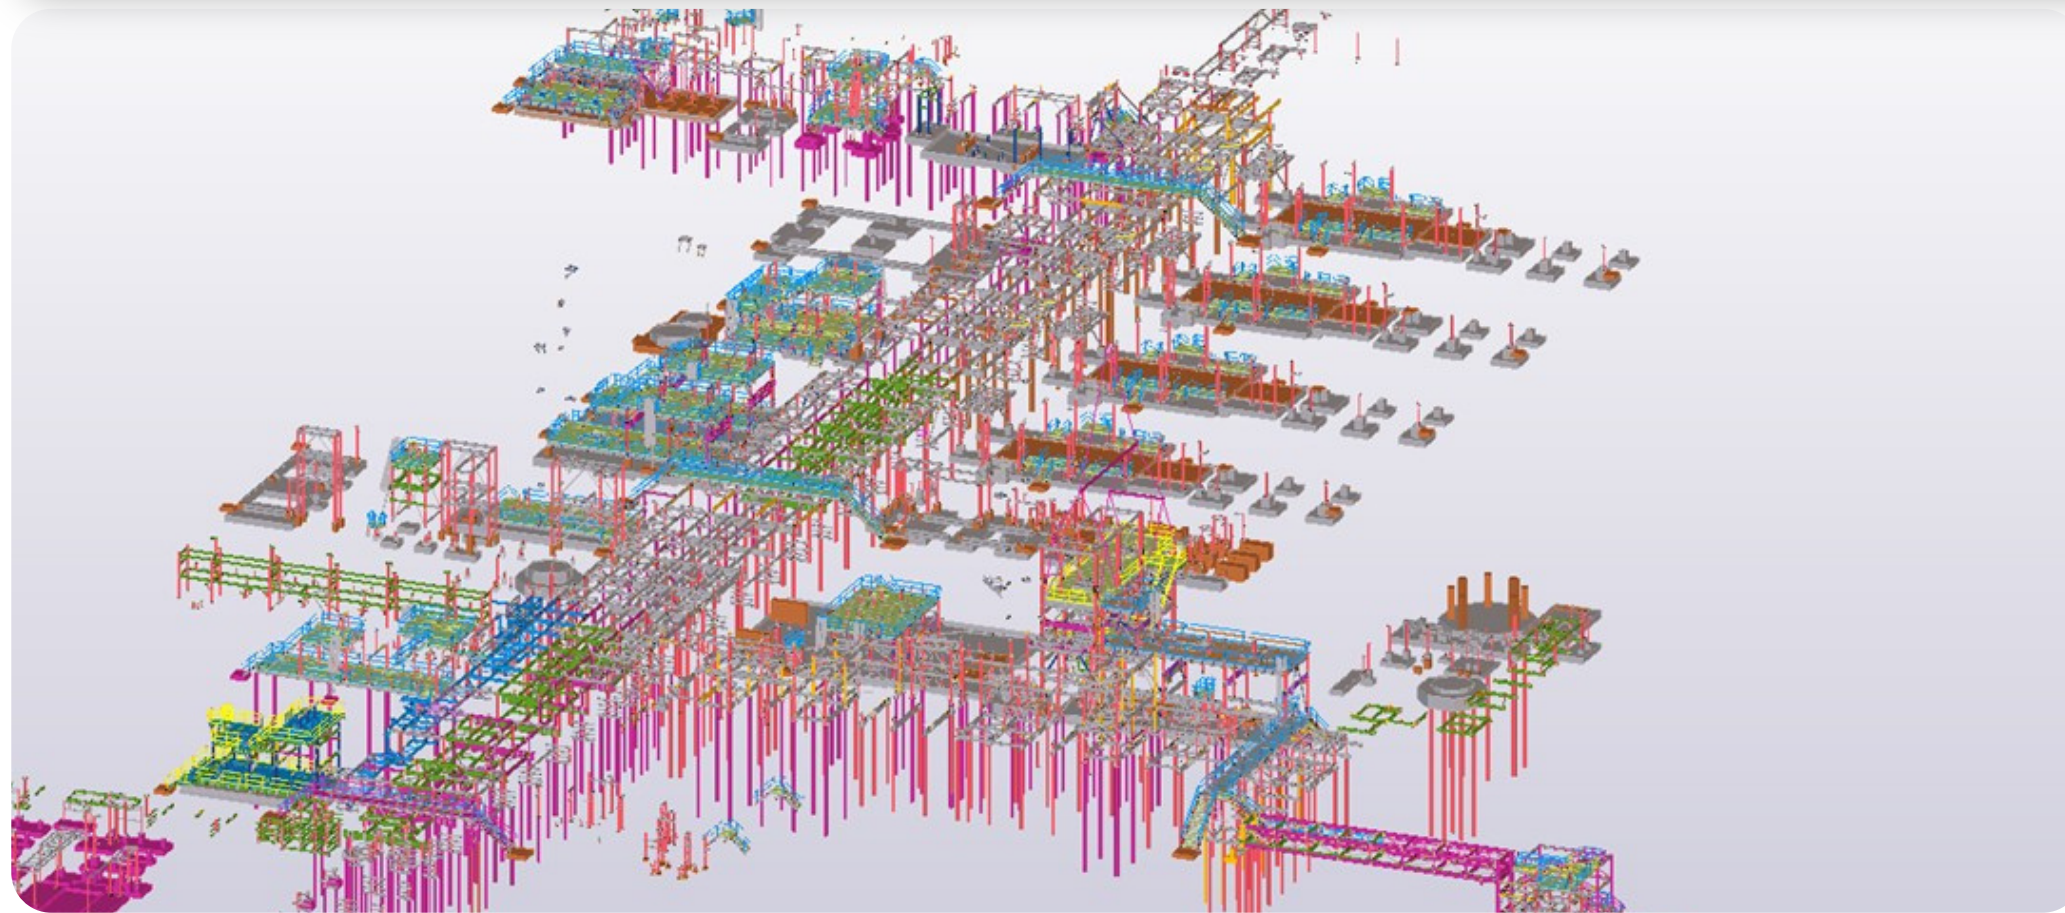

Steel detailing service

- Expert utilization of tools like Tekla to perfectly incorporate architectural design with engineering calculations.
- State of the art 3D modelling to portray the best possible steel detailing blueprint.
- Experienced steel detailers ensure feasible solutions even for highly complex undertakings.
